Personal Profile

Passionate and versatile BBIT student with growing expertise in **MERN Stack development, networking, and cybersecurity principles**. Experienced in **leading collaborative tech projects** and delivering **efficient, user-centered digital solutions**. A motivated **AI and Machine Learning enthusiast**, eager to integrate intelligent technologies into **modern systems**. Driven by **innovation, problem-solving, and continuous professional growth** in the tech space.

Education

2023 – Present **Bachelor of Business Information Technology**
Dedan Kimathi University Of Technology

2019– 2022 **Kenya Certificate of Secondary Education**
Karima Girls High School
B+(Plus)

2011 – 2018 **Kenya Certificate of Primary Education.**
Gituamba Primary School 390 Marks

Skills

Technical Skills

- **Languages & Frameworks:** JavaScript, React, Tailwind CSS, Node.js, Express.js, MongoDB, Python, C, C++, php , Java.
- **Web Development:** RESTful APIs, responsive UI development, version control with Git/GitHub.
- **Mobile Development:** React Native, Android development using Java and XML layouts.
- **Networking & Cybersecurity:** Basic networking concepts, network configuration, cybersecurity fundamentals.
- **Cloud & Tools:** Exposure to cloud computing concepts, Linux basics, CICSO networking content, VS Code, Git, GitHub.

Soft Skills

Communication & Collaboration: Able to explain technical concepts clearly and work effectively in diverse teams.

Leadership: Experience leading student groups, hackathon teams, and serving as class representative.

Problem-Solving: Comfortable analyzing challenges and proposing practical, efficient solutions.

Planning & Organization: Skilled in managing multiple tasks, meeting deadlines, and delivering on project goals.

Achievements

Leadership & Achievements

- **Class Representative, BBIT –** Dedan Kimathi University of Technology (2023 – Present).
- **Information Technology (BBIT/IT) Student's Leader Delegate** 2025/2026
- **GDG Cloud Computing Lead -** Elected as Google Developers Group (GDG) as the Cloud Computing Lead.
  - Organized and guided sessions on cloud and developer tools.
- **Student Leadership Roles –**Primary school president and Njiru Sub-County chairperson (2017/2018).
- **1 st Place –** Energy Awareness SMS Hackathon (03/2025).
- **Participant –**ESA Women in Engineering Summit Hackathon on sustainable urban solutions.
- **Power Learn Project (PLP) - G**raduated as a Software Developer on 5th Dec 2025

Interests

- Software development and emerging technologies (AI, Machine Learning, cloud).
- Community service and mental health advocacy.
- Sustainability and women empowerment in tech.
  Public speaking, writing, and mentoring peers.
- School and church choir member and choir trainer, with formal vocal training and ongoing study of piano/keyboard and guitar.
- Current St.Cecilia Choir Dekut Students Catholic Association Choir Mistress 2025/2026.

Trainings

First Aid at Work Course
by St John Ambulance -Disaster preparedness and First Aid administration

Peer Counseling
Identifying Social/psychological/academic needs amongst my peers

Student Leadership training
Training in Effective Student Leadership and Collaboration

Projects

MajiTrack – PLP Fullstack Project | 2025

- Built a household water management system to track daily usage, calculate costs, and visualize
- consumption trends. Integrated smart meter readings, interactive dashboards, and data visualization tools to empower users to reduce bills and practice sustainability.
- Worked with MERN stack React for Frontend, MongoDB, Express, and Node.js for backend scripting and data processing, promoting eco-friendly living and informed decision-making in water usage.

Energy Awareness SMS Platform – Hackathon Project (1st Place) | 2025

- Led a team to build an SMS-based alert system to promote energy awareness and efficient usage.
- Designed system logic and user flows, contributing to both backend functionality and presentation.

Portfolio Website

- Created a personal portfolio to showcase projects using React and modern UI practices.
- Deployed the site on Vercel and connected it with GitHub for continuous updates.

MoyoCheck – Mental Wellness App for Students

- Designed a mental wellness app concept to help university students privately assess and track their emotional well-being through simple self check-ins.
- Implemented core features such as mood tracking and insight generation, with a focus on user-friendly, empathetic UX for students who may be struggling silently.
- Integrated the app with appropriate technologies to make it accessible and scalable for campus communities.

Referees

1. **Dr. Elizabeth King'ori**
   Registrar Academic Affairs & Research
   Dedan Kimathi University of Technology
   Tel: 0722 370 455
   Email: registraraa@dkut.ac.ke

2. **Mr. David Wachepele**
   Chair of Department Information Technology (COD – IT)
   Dedan Kimathi University of Technology
   Tel: 0710 899 513
   Email: cod-it@dkut.ac.ke

3. **Rev. Fr. Dr. Vincent Wambugu**
   Head of Chaplaincy
   Dedan Kimathi University of Technology
